Habas Steelworks Incident: Supply Chain Update and Customer Assurance

Like many in our industry, we were saddened to learn of the recent fatal explosion at the Habas steelworks facility in Türkiye. Our thoughts are with those who lost their lives, those who were injured, and the families, colleagues, and communities affected by this tragic event.

In light of the incident, we have been in direct contact with our suppliers and have reviewed our supply chain exposure. We would like to reassure you that our supply chain is not impacted by this event, and we do not anticipate any disruption to our production schedules, order fulfilment, or customer deliveries.

While our business operations remain unaffected, we recognise that incidents such as these are a stark reminder of the importance of safety across our industry. We will continue to monitor the situation closely and maintain regular communication with our supply partners.

We know continuity of supply is important to your business, and we wanted to provide this update as soon as possible to give you confidence that your orders and planned deliveries remain on track.

If you have any questions or concerns, please do not hesitate to contact your usual representative. As always, we appreciate your trust and valued partnership.

The TR Leadership Team
