

Annie Wyld - Work Experience - Marketing

In 2014 Annie Wyld spent two weeks interning at TR Fastenings in Uckfield. She joined TR's marketing department and participated as a full member of the team, reporting into the head of marketing, Abi Burnett.

Fast-forward four years, and she has just graduated from Leeds Beckett University with a degree in Marketing.

Abi comments, *"we really enjoyed having Annie working with us at TR. She was fully immersed in the experience in order to give her a good flavour of what we do, specifically within the marketing department.*

She handled the work brilliantly and showed true potential. Developing future talent is one of our fundamental visions at TR; it is paramount that we assist in cultivating the leaders of the future, as having the best people will ensure our competitive edge stays intact. Annie was a great asset to the team and we congratulate her on her recent graduation."
