

TR Fastenings at Fastener Fair Global 2023

TR Fastenings, part of the Trifast plc Group, is delighted to again be exhibiting at this year's Fastener Fair Global, an exciting year for TR as we celebrate our 50th anniversary.

TR supplies components to more than 5,000 companies globally across a wide range of industries, including [light & heavy vehicle](#), [health & home](#), [energy, tech and infrastructure](#) and [general industrial](#). Our key focus at Fastener Fair Global is to reengage with our Master Distributors in Europe, and to seek out new [Distributors](#) in geography where we currently don't have coverage.

This creates a great opportunity to network and showcase our proprietary products and enhanced range. This includes our core product [Self Clinch](#) and the increased range of [Fasteners for Sheet Metal](#), [Enclosure Hardware](#), [Screws](#) and [Inserts for Plastic](#), [Cable Glands](#), [Security Fasteners](#) and [Plastic and Rubber Hardware](#).

Manning the stand will be key members of our Distributor Team, commodity specialists and technical engineering team. We are particularly keen to have meetings on the stand to discuss how we can further increase our support and assisting in distributing more of our product.

In 2022 TR invested heavily in Europe including creating a German logistics hub to ensure that we have near shored stock to support our Master Distributors, eliminating Brexit issues and smoothing out our supply chain. A by product of this is that this also reduces our carbon footprint assisting with our Sustainability goals. Additionally, we have invested heavily in another two of our European sites through creating a new facility in Hungary and a €5m extension to the TR VIC manufacturing location in Italy.

The TR Team is looking forward to meeting with our European distributors, and end users who attend the event. Visit us in Hall 1 stand 612.

21st - 23rd March 2023, Messe Stuttgart, Germany, Stand 612
