

# TR Sweden to Showcase Innovation at Elmia Subcontractor 2025

By TR, part of the Trifast plc Group

**TR Sweden has confirmed its participation in Elmia Subcontractor 2025, marking another year at one of Europe's premier trade shows for the manufacturing and subcontracting industries.**

The event, set to take place from **11-13 November 2025 at the Elmia Exhibition Centre in Jönköping**, Sweden, celebrates its 50th anniversary this year. Known as a key meeting point for industrial suppliers and decision-makers, Elmia Subcontractor offers a dynamic environment where innovation, collaboration, and business intersect.

TR Sweden, a regular exhibitor at the show since 2006, will return to **Stand B09:28** to present its latest fastening technologies and engineering solutions. This year, team members Manoj Parmar, Anders Peterson, Julia Nilsson, Patrik Ringdahl, Mauricio Nunez and Filip Hagman will be on hand to engage with visitors and discuss how TR's products are helping drive performance, sustainability, and efficiency across global industries.

Elmia Subcontractor is one of Europe's leading trade shows for the manufacturing and subcontracting industries. Bringing together thousands of professionals, it offers a dynamic platform for networking, innovation, and exploring the future of industrial technology. The event is known for its live, collaborative atmosphere where cutting-edge solutions and ideas take centre stage.

"Elmia Subcontractor is more than a trade show - it's a hub of industry players gathering to gain inspiration, showcase their products, and discuss the latest trends and technologies" said Manoj

Parmar, Business Development Manager. "We're excited to be part of this milestone event and to continue supporting our partners and customers with innovative fastening solutions."

For more details, visit the [Elmia Subcontractor](#) website and make sure to visit TR Sweden at Stand B09:28 to discover how they're shaping the future of fastening technology.
