

TR invited to exhibit at CBM Mini Fastener Expo 2025

By TR Fastenings

TR, part of Trifast plc Group is proud to announce its participation in the upcoming CBM Mini Fastener Expo 2025, following a successful relaunch of the event last year by the Confederation of British Metalforming (CBM) The one-day exhibition will take place on 15 October 2025 at the National Metalforming Centre in West Bromwich, UK.

our customers and partners across the UK manufacturing sector.

Find out more about the [CBM Mini Fastener Expo 2025](#).

The Mini Fastener Expo is a key date in the calendar for UK fastener and precision component manufacturers, offering direct insight to the latest in manufacturing equipment, tooling, technology, and services. Around twenty leading UK-based suppliers will be showcasing innovations spanning cold heading and thread rolling machinery, process monitoring systems, tooling and dies, lubricants, coating systems, testing and inspection equipment, and more.

TR will be showcasing its latest advancements in fastening technologies, alongside a diverse range of solution providers including experts in heat treatment, simulation software, and threadlocking applications.

An informative seminar programme will run alongside the exhibition, underlining the event's focus on innovation and sustainability in manufacturing.

We're excited to once again connect with industry leaders, share our expertise in metal forming and fastening, and explore new ways to support
