

part of the Trifast plc Group

Plastic & Rubber Hardware

A wide range of components that provide light weight, corrosion resistant and non-conductive solutions for fastening panels, supporting circuit boards, and protecting, fixing/routing of wires and cables

Struggling with stock availability or lead times? Don't worry, we've got you covered with our localised stock availability. Our dedicated customer service and expert technical support provide peace of mind. From start to finish, we support customers throughout the buying process, offering tailored services backed by our in-depth industry knowledge.
