

## Taiwan Earthquake - 05.04.2024

To whom it may concern

Our thoughts in the first instance go out to all that have been affected by the recent earthquake in Taiwan.

I am writing to assure you that this has not impacted our production or supply chain. We understand that natural disasters can cause concern, and we want to be transparent with you about the potential for disruptions.

We are fortunate that our manufacturing facilities and supplier network are in areas that were not affected by the earthquake. Our production and shipping operations are continuing as usual.

We are closely monitoring the situation and will keep you updated if anything changes.

Thank you for your continued trust and business. Please do not hesitate to make contact if you need any further clarification.
