TR ENCLOSURE HARDWARE

TR Fastenings is recognised throughout the industry for world class products & services

We manufacture, stock & distribute a vast range of industrial fasteners & components

Locking Systems
Locks & Locking Components
Hinges & Latches
Clamps & Terminals
Gaskets
Handles
Accessories

Edition 4
### Locking Systems

- Swing handle with cylinder key lock
- Swing handle with insert lock
- Swing handle with profile key lock
- Swing handle with recess for lock
- Swing handle with side fitting
- Anti theft swing handle
- All stainless steel swing handle
- Cams
- Profile cylinders
- Cogwheel mechanisms
- Rods
- Internal lock for passive door

### Locks

- Insert lock IP65, IP66 & IP69K
- Insert lock & insert lock waterproof
- Compression insert lock
- Compression insert lock waterproof
- Key lock
- Wing key lock
- Wing lock
- L handle lock
- Compression handle lock
- Slide locks
- T handle locks
- Paddle latches

### Lock Components

- Insert lock IP65 & IP66 housing only
- Insert lock housing only
- Insert lock waterproof housing only
- Lock inserts
- Cams

### Hinges

- Adjustable
- Butt
- Concealed
- Corner
- Flag
- Leaf
- Lift-off
- Offset
- Piano
- Pin
- Side
- Spring
- Fire Door

Enclosure Hardware
Product Range

Clamps
- Aluminium single clamps
- Aluminium double clamps
- Aluminium multiwire clamps
- Aluminium clamps with brass base
- Steel single clamps with hex set
- Steel double clamps with socket screw
- Polyamide clamps
- Grounding clamps
- Linear clamps
- Clamp covers

Terminals
- Terminals
  - LZ6V Terminal connecting device
  - Terminals for connecting device
- Knurled nuts
  - Round
  - Hexagon
- Busbars
  - Type 001
  - Type 002
  - Type 003
  - Type 004

Gaskets
- Edge profile
- Channel fixing
- Self adhesive
- Assembly profile

Latches
- Adjustable toggle latch with safety catch
- Claw latch with safety catch
- Under centre latch with safety catch
- Catch plates
- Lockable claw latch
- Butterfly latch

TR Fastenings is a global specialist in the design, engineering, manufacture and distribution of high quality industrial and Cat C fastenings principally to major global assembly industries. We have 32 business locations worldwide supplying components to over 5000 companies globally.

The services we provide include early design and technical involvement, VA/VE engineering, global sourcing and logistical solutions. We therefore fulfil a role as an FSP - full service provider.

Enclosure Hardware

Sectors

Telecoms

Telecoms enclosures serve a vital purpose: to house, organise and protect the valuable equipment needed for modern communications. Found in multiple locations, including outdoor and even hazardous environments, it’s crucial that these enclosures provide sufficient protection from weather conditions, theft and tampering as well as cyber security threats.

Transport

Robust products for trucks, buses and trains to support the wide variety of applications where this product is used. From control and power cabinets to door locking systems and panels we have a solution to meet your requirements.

Energy, Oil and Gas

Few industries demand more of equipment and hardware than oil and gas production, and the energy sector in general. Offshore rigs, for example, operate in notoriously exposed and hazardous conditions.

Power generated from solar and wind sources use sensitive electrical components and batteries that, if exposed to the elements, can cause system failure. As a result, stringent safety and process restrictions are required and equipment must be kept in secure, robust enclosure units.

HVAC

Heating, ventilation and cooling (HVAC) operations span a wide range of applications, involving numerous pieces of equipment and controls, all of which need to be secure, protected and accessible. From heating controls to large scale ventilation units, refrigeration systems and air treatment centres, the equipment used in this sector is often large scale, sensitive and in need of careful protection.
