

Production Part Approval Process Engineer

part of the Trifast plc Group

Who we are

TR Fastenings (TR) is part of Trifast plc and is a leading international specialist in the design, engineering, manufacture, and distribution of high-quality industrial fastenings and Category 'C' components principally to major global assembly industries. Every colleague around the world is a valued member of the TR family who on a daily basis work together to deliver a high-quality service for all our customers.

We are looking to recruit a PPAP Engineer on a permanent basis to join our team and be based at one of our TR locations, in the West Midlands (Tipton/ Walsall).

The Role

Reporting to the Quality Manager, your role will be to review, complete and control all PPAP and International Material Data System (IMDS) requirements for TR Midlands.

Key Tasks

- Controlling all PPAP and IMDS requests and submissions for TR Midlands and supporting other sites as necessary.
- To assess the quality of incoming goods, in line with purchase order requirements ensuring compliance with company requirements.
- To comply with quality systems in all aspects of the location.
- To assist and maintain quality levels as per the quality manual.
- To support, when required, with customer concerns, issue containment and 8D's.
- To support any internal/external audit requirements for TR Midlands.
- To undertake project work as requested or driven by business needs.

The Candidate

Experience in reviewing, compiling and submitting PPAP documentation packs is essential, along with having knowledge of our products.

You will be self-motivated, possess excellent communication skills both verbal and written to be able to communicate and build good relationships. You will also be able to work to deadlines and always remain focused and have excellent attention to detail.
