Enclosure Hardware

Energy

Wherever power is being generated there is a need for security cabinets and access panels housing the controls in hostile weather conditions. Our products meet the IP ratings of up to 69k that this industry demands.

The products shown are a small selection of the full range we have available, please visit www.trfastenings.com/Products/Catalogue/Enclosure-Hardware to see our extensive range of Enclosure Hardware.

Enclosure Hardware

Transport

Robust products for trucks, buses and trains to support the wide variety of applications where this product is used. From control and power cabinets to door locking systems and panels we have a solution to meet your requirements.

The products shown are a small selection of the full range we have available, please visit www.trfastenings.com/Products/Catalogue/Enclosure-Hardware to see our extensive range of Enclosure Hardware.

Enclosure Hardware

Technology

These products are used extensively in the telecoms and electronics industry particularly in enclosure systems, racks, cabinets, ATM's, ticket machines and point of sale devices. The range of products we can supply meets the needs for this industry.

The products shown are a small selection of the full range we have available, please visit www.trfastenings.com/Products/Catalogue/Enclosure-Hardware to see our extensive range of Enclosure Hardware.

A large industrial HVAC unit with multiple circular fans and metal piping. The unit is mounted on a rooftop or elevated platform. The fans are arranged in a grid pattern, and the metal structure is complex, with various pipes and supports. The background shows a clear sky and some distant structures.

Enclosure Hardware

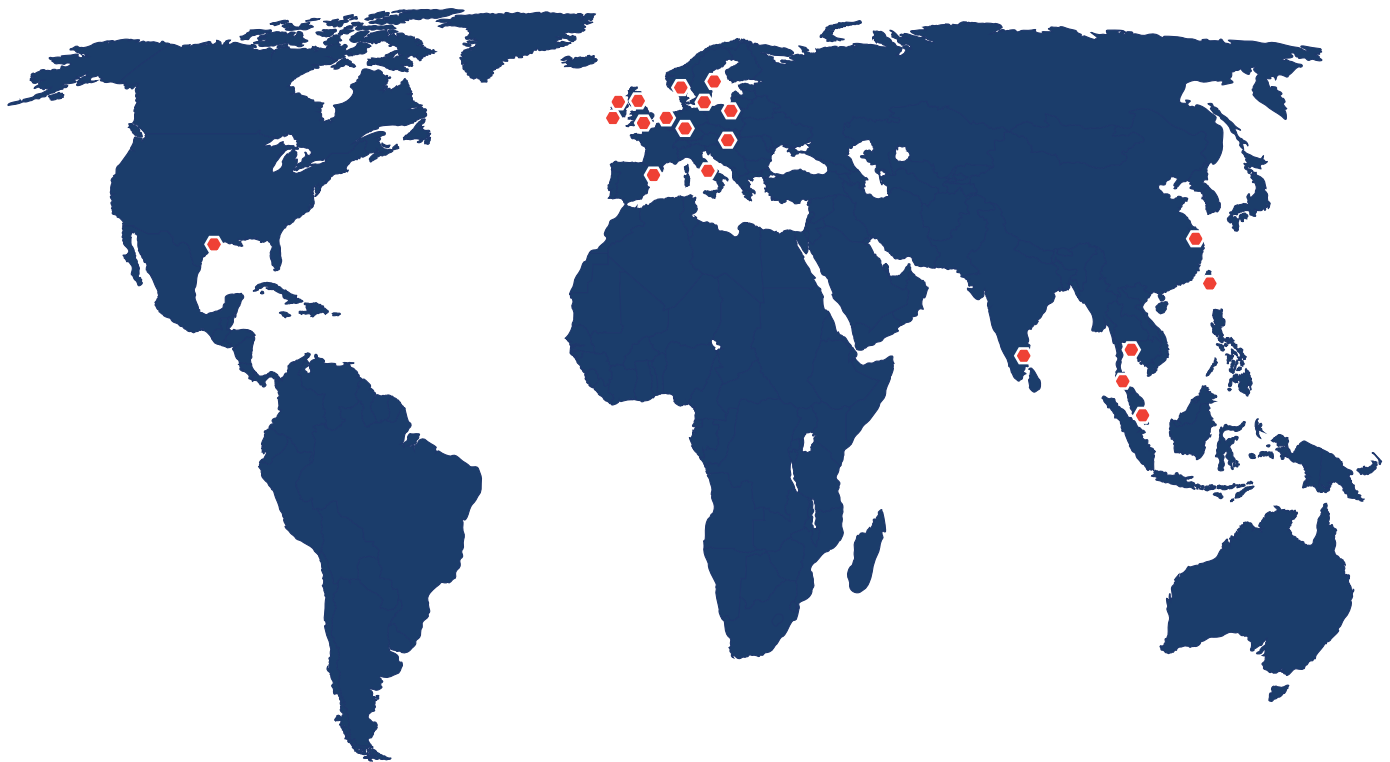

General Industrial & HVAC

Heating, ventilation, air con and general industries have huge requirements for enclosure products. We have the appropriate product range suitable for both internal and external machinery and construction.
